

Mr. Blue

Priscilla Whitaker

**Mr. Blue is a
Great Blue Heron.
He comes to fish
in the pond near
my home every
day.**

Mr. Blue got his name, The Great Blue Heron, from his large size and gray-blue feathers.

Mr. Blue has long, skinny legs that look like stilts. His black feet have three toes in the front and one toe in the back. His toenails are called talons. They are very sharp.

His eyes are bright yellow, and his long neck has gray, black, and white feathers.
